

Super Spacer® T-Spacer™

Super Spacer T-Spacer is the fully automated version of TriSeal, which utilizes online PIB extrusion for TriSeal at the point of IG mfg. With its triple-seal design, T-Spacer is designed to satisfy the toughest commercial glazing demands, including silicone structural glazing (SSG) and is integrated into high-speed automated manufacturing process .

Super Spacer® T-Spacer™ features:

- Thermoset, silicone spacer with integral desiccant
- Low thermal conductivity
- Unique triple seal design
 - Inner acrylic adhesive seal for immediate unit handling
 - Customer-applied polyisobutylene primary seal
 - Silicone applied structural secondary seal
 - Excellent durability for sustainable performance

- North America ASTM E2188/ E2189/ E2190
- European EN 1279
- Canadian CGSB 12.9
- French Standard CSTB for CEKAL
- LEED® Contribution
- Passive House phA+ certificate for Arctic climate
- ASTM E330 (120* psf positive, 155* psf negative)
